WNTC Elects New Station Board

Arnold Gosewich of Ottawa, Ont., a junior business administration student at Clarkson, was recently named station manager of WNTC, campus radio station. At the same time Miss Lydia Urban of New Rochelle, a sophomore music student at the State University Teachers College was named assistant station manager. WNTC is a joint student activity of the two local colleges.

During the past year, Gosewich has served as director of announcers. Miss Urban was secretary for the radio station board.

Other new members of the radio station board from the State University Teachers College are Miss Katheryn Funnell of Watertown, secretary; and Miss Mary Anna Johnson of Watertown, director of the record library.

Clarkson men on the board include David Jennings, personal director; Paul L. Zieske, director of operations; Daniel J. Gionet, director of announcers; Ray J. Black, control room operations; Harvey Glatt, sports director; Roger Ancona, director of news; Max Ehrlich, director of advertising; John W. Booth, business manager; Joseph P. Hesler, director of engineers; Geraw D. Brill, director of programming; and Wallace H. Downs, director of publicity.

Campus Personalities

by FRANK PECSI

At the present time, Omega Epsilon fraternity has as its president an extremely ambitious and conscientious electrical engineer. His name is Bob Jones and we would like to introduce him to you as student personality of the week.

Bob received his high school diploma from Lisbon High School, Y., where he had a well rounded list of extra-curricular activities. The most prominent of these activities was the position of president of the senior class, while he also had the honor of being valedictorian of his graduating class.

Enrolling in the class when he entered Clarkson in the fall of 1951, Bob chose electrical engineering as his major, the field of electrical engineering. While a "freshman" he came a member of Pershing and worked on the Integrator staff. He also participated in the Ice Carnival public relations committee.

Bob started off his second year at CCT by being elected class council while he also spent considerable time to our radio station, WNTC. He is a member of Omega Epsilon fraternity since the spring of 1953.

Tau Beta Pi and Eta Kappa Nu were two of the honor societies which Bob was selected to join. He was a junior. He was appointed secretary of Omega Epsilon fraternity brothers and worked as day manager at WNTC. As a junior, Bob was named the outstanding electrical engineer in his class by Eta Kappa Nu and in addition joined the Institute of Radio Engineers.

BOB JONES

Besides being president of his fraternity this year, Bob is vice-president of Eta Kappa Nu and the National Corresponding Secretary of Tau Beta Pi. He also fills two other positions, that of man of the Campus Service Committee at Lewis House and that of information officer of the Pershing Rifles; while he was co-chairman of the stunt committee during the past Ice Carnival.

We certainly hope that Bob will find his future as successful in the past has been here at Clarkson.
